

## Matt PVC (3 Year Laminate)

Matt clear PVC is a 'dead' matt clear PVC overlaminating film which is coated with a permanent acrylic adhesive suitable for overlamination of all ink types including UV inks. The 'dead' matt smooth finish gives absolutely excellent anti-glare properties and therefore this product is commonly used for general paper and filmic poster graphic overlamination where a matt clear completely anti-glare or 'dead' matt finish is required.

75 'DEAD' MATT PVC / PERM / 70 PE KRAFT LINER (1 side Silicon)
